

## CHAPLAIN REPORTING SYSTEM

**Information entered below Concerning a New Chaplain Reporting system introduced by our current National Chaplain Peter Hook. Note the details below:**

### **New Reporting System for Chaplains**

We now have an online reporting system for Chaplains across the nation. Simply entering this <http://vfwchaplain.puptent1.org/> and it will take you directly to the report. VFW Chaplains are encouraged to report their activity at the beginning of each month using this new reporting system. Once you submit your report you will receive an email that lists all the data that you submitted. That email can then be forwarded to you State Chaplain or Department if your state has a reporting system in place.

Again, to submit your Chaplain's Report please use this [link](http://vfwchaplain.puptent1.org/) <http://vfwchaplain.puptent1.org/> and provide as much detailed information as possible. The information you post will go directly to a database which the National Chaplain can access. Don't forget to hit SUBMIT at the bottom of the form.

The new Chaplain's Report can also be accessed by going to [vfwpahq.org](http://vfwpahq.org). Once there, go to District/Post Tools and you will see Chaplain's Guide. The link is on my Chaplain's Page in the second paragraph next to my picture.
